INTERCHANGES AS A ROAD INVENTORY EVENT

SWAG – INNOVATION CONFERENCE 2024

CHARLES MAJOR
WE’VE IMPROVED OUR INTERCHANGE DATA!

• Previously defined Interchanges by Points
• Interchange Event Layer was created using Road Inventory Network Segments
• Interchange associated Road segments were grouped into Interchanges by Interchange ID and then classified by Interchange type
ADDED VALUE!

- Interchanges have unique IDs
- Integrated with the Road Inventory
- Interchange type attribute describes interchanges in accordance with MIRE 2.0 requirements.
DOWNLOAD TODAY!

• Available on GeoDOT right now!

• Built into the Road Inventory starting next year
HERE ARE SOME OF THE FUN INTERCHANGES
SPECIAL THANKS

• Sasha Gannon
• MJ Riekert
• And you!
