# Beyond Mobility Data Exploration Tool

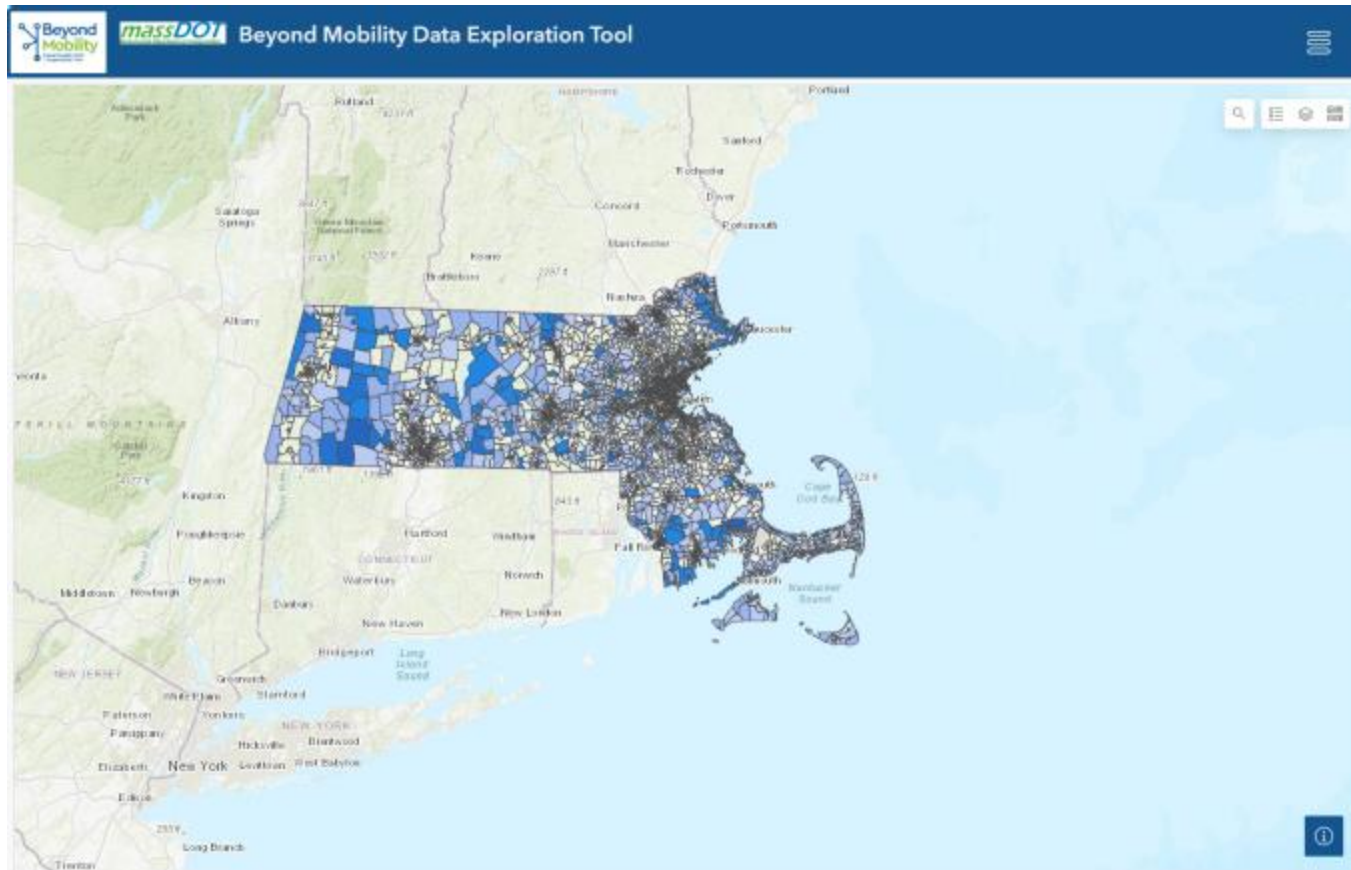

Derek Krevat

MassDOT Office of Transportation Planning

# Overview

This tool, developed as part of MassDOT's Beyond Mobility planning process, compiles a variety of data across Beyond Mobility's six Priority Areas:

- Safety, Reliability, Supporting Clean Transportation, Destination Connectivity, Resiliency, and Travel Experience

# Background

- **Use Cases**
  - Project selection decisions across all funding programs (implementing agencies)
  - Initiation of corridor or other planning studies (planning agencies)
- **Questions the tool can help to answer**
  - With a limited amount of funding, which previously-initiated projects should be selected for programming?
  - How do projects align with Beyond Mobility priorities?
